- You want to see your family reconnected, healed, and successful.
- You want to create a safe, loving, fun, supportive, and healthy environment in your home.
- You want your children to know their identity, values, and purpose and be equipped to live them successfully.
- You are looking for a better way to “do family” with greater emotional intelligence and a coach approach that transforms family dynamics.
- You want a practical blueprint and tools that will ensure a significant and enduring legacy.
- You’re committed to building a legacy of character in your family and a legacy of true wealth.
- You want a process for passing on the most important things in life—wisdom, understanding, and blessings—while teaching your children how to do the same.

- You resonate with the seven-mountain cultural transformation movement and are looking for a comprehensive, practical, and effective equipping strategy (family, government, business, education, media, arts and entertainment, and religion).
-

The Family Legacy: Shaping Culture from the Inside Out is a practical interactive course that will empower you to build a thriving family, an enduring legacy, and a transformed culture.

The Family Legacy Model is a simple, enduring, transferable framework to do family. The six protocols and practices that follow intentionally build the family as designed while teaching our children and grandchildren to do the same.

The protocols provide a simple process that families can use to transform individuals and families from the inside out so the generations downstream can experience healing, growth, and success in life while imparting these practices to their children and grandchildren.

Practicing these protocols will cut off the power of negative generational influences. Practicing them will preempt the toxic indoctrination of our godless public and university education systems. Living the protocols will empower our children to think critically and objectively beyond the smoke and mirrors of the deceptive mainstream media and keep them connected to the God of their faith, working with Him to succeed in a long and prosperous life.

The most important focus for a healthy world is truly healthy families who are producing healthy children who become healthy leaders at the decision centers of culture while equipping their children to do the same.

How is this course different? In a few words, it's more than theory and concept. It is a practical how-to course with more than sixty exercises, experiences, and tools to equip families.

Important Distinctions of the Family Legacy Model

- biblically based and designed
- integrates emotional intelligence into the context of family
- use of a coach approach in the family
- transferable process for generational impact
- experience-based training methodology
- intentionally designed for maximum legacy benefit
- more than sixty experiences and tools to equip families with a step-by-step how-to framework

The Family Legacy Model provides a meaningful blueprint for cultural transformation from the inside out.

This course is PART ONE of The Family Legacy TWO PART JOURNEY addressing the first two protocols of the Family Legacy Model.

All culture is downstream from the family. Family creates culture. Healthy families produce healthy culture. Learn how to restore families to God's design, starting with your own family.
