#### PRIMUS UNIVERSITY OF THEOLOGY IS CELEBRATING OUR 20TH YEAR

2021 is a year of Thanksgiving for 20 years of God's Blessings and protective covering over Primus University of Theology.

It has been an honor for Primus to bestow nearly 300 graduate degrees to exceptional men and women over the last 20 years. We celebrate each and every graduate and thank them for choosing to make Primus their University.

In 2017 during a Bridge Builder Conference with Dr. Hal and Cheryl Sacks, I was introduced to Dr. John and Sylvia Corella. Dr. Corella said he had been praying for God to open a door for him to get engaged after years of retirement. Praise the Lord! Primus was his answer.

With Dr. Corella's Corporate Growth, Development and Military background, Primus was on its way to exponential growth. We met with Dr. Len Munsil, President of Arizona Christian University, to present our plan for growth and within minutes we had formed a Strategic Alliance Partnership.

The Primus Board of Regents attracted exceptional leaders like: Dr. Dean Radtke, Dr. Ted Baehr, Dr. Nicholas Papanicolaou, and Dr. John Corella.

In June 2019 Primus moved onto the Arizona Christian University Campus, where we now have our offices and celebrate our annual Graduation Commencement Ceremonies.

**Together, we are "A force to be reckoned with".**

## President's message continued

The following historical outline of the rise and fall of great nations is an awakening.

**What can we do to break this 2000 year pattern?**

**HOW LONG DO WE HAVE?**

**By: Gaylon Ross**

gaylon\_ross@mac.com

About the time our original thirteen states adopted their new constitution in 1787, Alexander Tyler, a Scottish history professor at the University of Edinburgh, had this to say about the fall of the Athenian Republic some 2,000 years earlier:

*"A democracy is always temporary in nature; it simply cannot exist as a permanent form of government."*

*"A democracy will continue to exist up until the time that voters discover they can vote themselves generous gifts from the public treasury."*

*"From that moment on, the majority always vote for the candidates who promise the most benefits from the public treasury, with the result that every democracy will finally collapse due to loose fiscal policy, which is always*

*followed by a dictatorship."*

*"The average age of the world's greatest civilizations from the beginning of history, has been about 200 years".*

*"During those 200 years, those nations always progressed through the following sequence:*

- 1. From bondage to spiritual faith;*
- 2. From spiritual faith to great courage;*
- 3. From courage to liberty;*
- 4. From liberty to abundance;*
- 5. From abundance to complacency;*
- 6. From complacency to apathy;*
- 7. From apathy to dependence;*
- 8. From dependence back into bondage"*

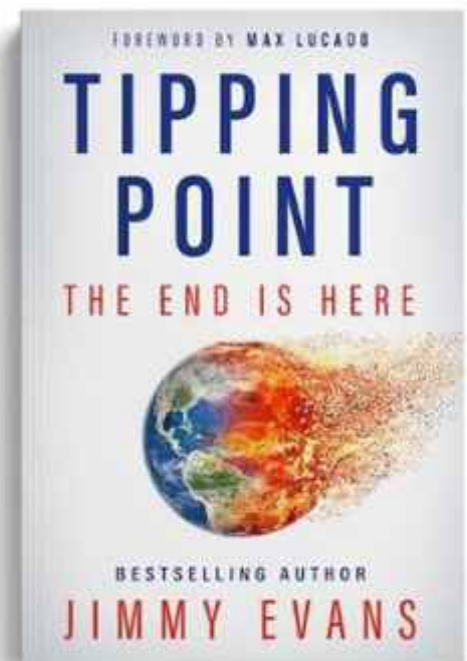

Consider this...if Congress grants amnesty and citizenship to twenty million plus criminal invaders called "illegals" and they vote, then we can say goodbye to the US of A in fewer than five years.

If you are in favor of this, then by all means, delete this message. If you are not, then pass this along to help everyone realize just how

much is at stake, knowing that apathy is the greatest danger to our freedom.
